Rebuilding Relationships. . .

Trust is earned and relationships are restored at Raines. Mother and son are both grateful for the hope found in recovery and promise of a better future.

Empowerment and Hope. . .

At Raines hope is born anew as old cocoons of addiction peel away and new life emerges into genuine praise and joy as residents realize that God truly does love unconditionally and forgives. Resident Testimonials. . .

"Lucille Raines gives people, like me, HOPE. There are always other recovering addicts around to talk to when I am struggling with something. Lucille Raines has helped me grow spiritually, be able to find myself again and has helped me to love myself again." - Nicole P.

"Lucille Raines is very instrumental in my recovery. Raines provides me with a healthy, safe environment where regular support meetings give me the tools needed to stay clean. At Raines there is genuine interest in me as a person, one who is seeking a better way of life." - Eric H.

Resident Testimonials, continued. . .

"Before coming to Lucille Raines, I was full of fear. I knew I needed to further my growth and, most of all I needed peace and security. At Raines I have grown leaps and bounds. My network has flourished; I have maintained full time employment, acquired my driver's license and become a productive member of society. Moreover, I have had an opportunity to develop a relationship with myself and work on healing the things on the inside of me that were keeping me in the same toxic pattern. The environment here fosters growth and love and I am forever grateful for that." - Amanda E.

Recovery is a spiritual journey whereby persons rebuild, strengthen and expand their relationship with God.
